

# Dustin T. Cook, P.E.

Email: [dustin.cook@colorado.edu](mailto:dustin.cook@colorado.edu)

Website: <https://dcook519.github.io/>

Education	<b>Currently Pursuing Ph.D. University of Colorado, Boulder</b> <i>Department of Civil, Environmental, and Architectural Engineering</i>  <i>Dissertation:</i> Improving Seismic Design and Assessment: Development of New Component, Collapse, and Functional Recovery Metrics  <i>Advisors:</i> Abbie Liel	<b>2017-Present</b> 3.8 GPA
	<b>M.S. University of California, Los Angeles</b> <i>Department of Civil and Environmental Engineering</i>	<b>2013-2014</b> 3.6 GPA
	<b>B.S. California State University, Chico</b> <i>Department of Civil and Environmental Engineering</i>	<b>2006-2012</b> 3.7 GPA
Work Experience	<b>Research Engineer, Technical Developer, and Seismic Risk Consultant</b> <i>Haselton Baker Risk Group, LLC</i> Facilitated software development through the scrum process. Developed software for performance based earthquake engineering. Researched and developed new methods for structural response and performance model population to expedite the PBEE and risk assessment process. Assisted clients in performing risk assessments.	<b>2014-Present</b>
	<b>Junior Structural Engineer</b> <i>Culp and Tanner, Inc. Structural Engineers</i> Reviewed shop drawings from reinforced concrete, post tensioned, and steel components. Aided in the design of reinforced concrete columns for a parking garage system.	<b>2014-2015</b>
Teaching Experience	<b>Teaching Assistant: Reinforced Concrete Design and Senior Design</b> <i>University of Colorado, Boulder: CEAE Department</i>	<b>2018-2019</b>
	<b>Lecturer of Civil Engineering: Statics Lecture and Activity Session</b> <i>California State University Chico: Department of Civil Engineering</i>	<b>2015-2016</b>
	<b>Instructor of Civil Engineering: Statics Activity Session</b> <i>California State University Chico: Department of Civil Engineering</i>	<b>2013</b>
	<b>Undergraduate Instructor: Mechanics of Materials Extra Session</b> <i>California State University Chico: Department of Construction Management</i>	<b>2012</b>
Research Experience	<b>ATC-134: Performance-Based Seismic Engineering: Benchmarking of Existing Building Evaluation Methodologies</b> <i>Funded by the National Institute of Science and Technology (NIST)</i> Working group member. Comparing the response of an ASCE 41 analytical model with the response of a historic structure.	<b>2017-Present</b>

<b>ATC-123: Improving Seismic Design of Buildings with Configuration Irregularities</b>	<b>2015-2018</b>
<i>Funded by the Federal Emergency Management Agency (FEMA)</i>	
Working group member. Analytically investigated response of modern RC moment frame structures with vertical irregularities.	
<b>ATC-58-2: Development of Performance Based Seismic Design Guidelines: Phase 3</b>	<b>2014-2017</b>
<i>Funded by the Federal Emergency Management Agency (FEMA)</i>	
Working group member. Helped develop guidelines, resources, and methods for the improvement of the FEMA P-58 method.	
<b>NEESR-CR: Full-Scale RC and HPFRC Frame Subassemblies Subjected to Collapse-Consistent Loading Protocols for Enhanced Collapse Simulation and Internal Damage Characterization</b>	<b>2012-2017</b>
<i>Funded by the National Science Foundation (NSF)</i>	
Working group member. Developed near fault loading protocols for experimental tests of RC moment frame subassemblies.	
<b>2012 PEER Summer Internship Program</b>	<b>Summer 2012</b>
<i>Funded by the National Science Foundation (NSF)</i>	
Student Intern. Experimentally investigated shear wall boundary element behavior under Prof. Jack Moehle.	

---

<b>Publications and Presentations</b>	<p><b>Cook</b>, Liel, Luco, Almeter, and Haselton. <i>Implications of Seismic Design Values for Economic Losses</i>. Paper and Presentation at the 13th International Conference on Applications of Statistics and Probability in Civil Engineering, ICASP13, Seoul, South Korea, 2019.</p> <p><b>Cook</b>, Liel, and Haselton. <i>Benchmarking of Seismic Loss Estimations from FEMA P-58 Compared to Other Methods</i>. Presentation at ASCE &amp; SEI Structures Congress, 2019.</p> <p>Wade, Debock, Haselton, <b>Cook</b>, and Almeter. <i>Expected Performance of New Building-Code-Compliant Buildings in California</i>. Paper in the SEAOC Convention, 2018.</p> <p><b>Cook</b>, Wade, Haselton, Baker, and DeBock. <i>A Structural Response Prediction Engine to Support Advanced Seismic Risk Assessment</i>. Paper in the 11th National Conference on Earthquake Engineering, 2018.</p> <p>Haselton and <b>Cook</b>. <i>Resilient Seismic Design Using Prescriptive and Non-Prescriptive Design Methods</i>. Paper in the 11th National Conference on Earthquake Engineering, 2018.</p> <p>Debock, <b>Cook</b>, Haselton, and Wade. <i>New Developments for Rapid Seismic Risk Assessment of Wood Light-Frame Buildings</i>. Paper in the 11th National Conference on Earthquake Engineering, 2018.</p> <p>Debock, Wade, <b>Cook</b>, Haselton, Valley, and Sabol. <i>Quantitative Assessments of Code Provisions for Vertical Building Irregularities in Frame Buildings</i>. Paper in the 11th National Conference on Earthquake Engineering, 2018.</p> <p>Wade, Debock, Lawson, Koliou, <b>Cook</b>, and Haselton. <i>Seismic Risk Assessment of Tilt-Up Buildings using the FEMA P-58 Method</i>. Paper in the 11th National Conference on Earthquake Engineering, 2018.</p> <p>Debock, Fitzgerald, <b>Cook</b>, Haselton. <i>New Developments in FEMA P-58 Seismic Risk Assessment of Wood Light-Frame Buildings</i>. Paper and Presentation at the SEAOC Convention, 2016.</p> <p><b>Cook</b>, Fitzgerald, Chrupalo, Haselton, Baker. <i>Building Loss Estimation Methods: A Comparison of Methods and Recommendations for the Future</i>. Paper and Presentation at the ATC &amp; SEI, 2nd Conference on Improving the Seismic Performance of Existing Buildings and Other Structure, 2015.</p>

**Professional Affiliations**   **Earthquake Engineering Research Institute (EERI)**

- Member since 2017.
- Currently serving as the Interim Secretary for the Younger Members Committee.
- Served as a reviewer for journal articles in Earthquake Spectra.

**American Society of Civil Engineers (ASCE)**

- Member since 2017.
- Served as a reviewer for journal articles in *Natural Hazards Review*.
